Location
Beira, Sofala, Mozambique

TECHNICAL SKILLS

Frontend & Mobile
Next.js, React Native, Flutter

Backend
Node.js, Java, PHP, Python

Languages
TypeScript, Dart

Databases
MySQL, PostgreSQL, PostGIS

Infrastructure
Linux, Networks & Systems

Data
Power BI

CERTIFICATIONS

Cisco Networking Academy
Cybersecurity · Modern AI · Data Science · Computer Hardware

AWS Educate
Cloud 101 · Compute · Storage · ML Foundations · Generative AI

Vodacom M-Pesa Hackathon
Design Thinking · Prototyping · Market Research & Analysis

Scratch
Scratch Programming Certificate

LANGUAGES

Portuguese

English

Changana (Xitsua)

PROFESSIONAL PROFILE

Information Technology professional with experience in Full-Stack development, systems and network administration, and IT infrastructure. Builds modern, scalable web solutions and digital platforms, including offline-capable mobile apps, and manages technology infrastructure (networks, servers and systems) with a focus on security, availability and performance.

PROFESSIONAL EXPERIENCE

Data Platform Developer — Jun 2026 – Present
Data4MOZ · Remote

- Developing DataPortal, an open data platform for Mozambique.
- Building features for statistical data, visualisations and socio-economic reports.
- Developing the TERRA platform, the Terra MOZ app and the Digital Agricultural Extension platform.

IT Manager — Apr 2026 – Jul 2026
BioClean · Remote

- Managed IT operations and administered infrastructure, networks and systems.
- Implemented and maintained digital solutions and provided user support.
- Oversaw system security, availability and performance.

Software Developer — Jan 2026 – May 2026
UANICODE · Remote

- Developed modern, scalable software solutions.

Networks & Systems Administrator Intern — Jan 2026 – Mar 2026
Anantara Bazaruto Island Resort & SPA · Vilankulo

- Administered networks and IT infrastructure; monitored servers, networks and cloud services.
- Managed and maintained systems, ensuring infrastructure security and availability.

SELECTED PROJECTS

DataPortal (Data4MOZ) dataportal.co.mz
Open data and territorial intelligence platform for Mozambique, with statistical data, visualisations and socio-economic reports.

TERRA – Agricultural monitoring platform terramoz.com
Web platform that tracks the agricultural season in real time: dashboard with district and province maps, value-chain network (who sold to whom, how much and at what price), farm-gate prices, climate alerts and reports. Data isolated per organisation. Stack: Next.js, Python, Node.js, PostgreSQL/PostGIS.

Terra MOZ App (Android, Google Play) Google Play
Offline-first mobile app for field technicians to register farmers, plots and sales without network coverage, with automatic sync, cached satellite maps and guided farmer consent.

Digital Agricultural Extension (Extensão Agrária Digital) extensao.terramoz.com
Online training platform for agricultural extension workers in Mozambique, with progressive modules, quizzes, a server-graded final exam and certificates with a verifiable code.

EDUCATION

BSc in Information Technology — 2023 – Present
Catholic University of Mozambique (UCM)
Software development, networking and systems administration, IT infrastructure and information security.

AWARDS & ACTIVITIES

- 2nd Place at Vodacom Tech Start 2025
- Participant in the Vodacom M-Pesa Hackathon 2025
- Participant in the Vodacom University Fair
- Speaker: “Introduction to ICT” at Ponta-Gêa Secondary School
